Re: PR Docket # 92-235

Dear Ms. Searcy,

I would like to take this time to make a short comment on the F.C.C. Spectrum reforming proposal.

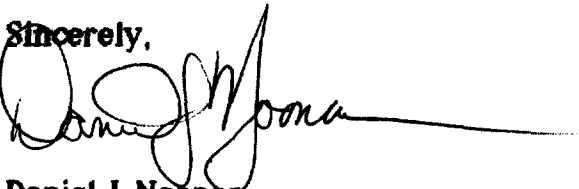

La Plata County covers approximately 2000 square miles in southwestern Colorado. We are located in a very mountainous area. There have been multiple problems in the past with "bleedover" from areas of Northern New Mexico that are up to 200 miles away as well as many local channels.

I am not a radio technician but if we reduce the spacing between channels, won't our situation become worse?

If the reduction does not exacerbate the problem then we would be in favor of the change. If the reduction does increase our already existing problems, then Hermosa Cliff Fire Protection District can not support it.

If you have any questions or concerns, please contact me at (303) 247-0401.

Sincerely,

Daniel J. Noonan
Chief of the Department
Hermosa Cliff Fire Protection District
